

ABOUT US

VNN International ApS is a leading distributor of GSM mobile phones and accessories located in Denmark, specializing in GSM 850, 900, 1800 and 1900 MHz compatible handsets and accessories.

VNN International is continuously working to meet the demand and deliver the latest handsets.

In the quiet hub of Copenhagen, VNN International works with the time-zones of the world and is always accessible providing top class service to customers. Company owned warehouses allow the holding of large physical stocks with efficient logistics to dispatch any quantity as soon as it is ordered to any corner of the world. Large quantities can be supplied at competitive prices.

As new handsets are launched VNN International, is able to supply clients with the latest handsets at competitive prices.

Located in Europe VNN International is strategically placed to cover all world time zones and the markets, facilitating creation of connections all over the globe. As a market leader handsets and accessories are sourced at competitive prices. Hard work, dedication and edge for competition have made VNN International a leading player in the telecommunications market with a sound reputation.

VNN International ApS has become an essential and integrated part of the international mobile phone industry with in house multilingual staff to deal with the various regions of the world. The synergy of our team and their expertise has made us a market leader in the distribution of mobile phones.

We pride ourselves in working hard and being committed to deliver top service to our clients. Our team is available around the clock even when our office is shut ensuring prompt deliveries to break into new markets.

As the mobile phone industry grows and takes on new challenges, VNN International with its commitment, dedication, enthusiasm and teamwork, will rise to the occasion.
